Innovative solutions for your temporary housing needs

## Don't Miss It

### City by the Bay

It's finally here! Synergy has opened an office and showroom in downtown San Francisco at 685 Folsom Street, directly across from the Moscone Center. The spacious 1500 square foot office is staffed with Sales Manager Kellie Young, and Guest Service Representative Carey Ramirez. Alongside the new office is a fully-furnished one-bedroom showroom, complete with the new Synergy Dream Bed.

### New Meet and Greet Service

Synergy Relocations recently introduced another unique complimentary service offering. With our new "Meet and Greet" service, one of our Guest Service Representatives will meet you at your apartment upon arrival, up until 11:00pm, seven days per week!

This service has been especially popular with international travelers coming into the Bay Area for the first time. The Synergy Service Representative now welcomes them to town and makes sure they have everything they need for a comfortable, hassle-free stay.

## Hope for the Holidays

In December, Synergy and business partner Brook Furniture delivered hope for the holidays to the Calderons, a local family in need. Synergy staff hand-delivered food, a Christmas tree with all the trimmings, and completely filled their apartment with new furnishings and housewares to help the Calderons celebrate their first Christmas in their new home.

According to Julie Glanville, Community Outreach Coordinator at Compass Community Services, "Eva Claderon was completely overwhelmed by all the new furniture and household, and her son Freddy is ecstatic about his new bike. For a family who has struggled so much against such overwhelming challenges, being given the gift of a new home was more meaningful to them than I think any of us will ever know. If all of our formerly homeless clients had such generous guardian angels, our jobs at Compass would be a lot easier!"

Synergy plans to continue to support the community through its partnerships and outreach efforts.

## What's Happening In-House

The Synergy team wishes our Sr. Account Executive Melinda Lau the very best as she takes time away from the company to be with her family! Melinda has been with the Synergy for the past four years and has provided exceptional service to our customers.

Meanwhile, Debbie Visovsky has been promoted to Account Executive. Debbie has been with the organization for nearly two years as a Guest Service Representative. We'd like to congratulate Debbie on her new position!

## Comfort Meets Luxury with Synergy's "Dream Bed"

Synergy is introducing the Synergy Dream Bed—another first in the Corporate Housing Industry—and a new feature of Synergy's housing units that is sure to make your stay even more comfortable. Complete with a Pillow Top Mattress filled with Euro

Memory Foam, the Dream Bed delivers ultimate comfort and will exceed customers' expectations. Ask your Synergy representative about our Dream Beds in select apartment communities throughout Northern California, and stop in for a good night's rest.

## Open Houses

**Avalon Mission Bay apartment community  
San Francisco, CA  
Tuesday, February 1, 2005**

Synergy recently treated clients to an open house with a magnificent view. Guests gathered at the Avalon Mission Bay apartment community to enjoy wine and hors d'oeuvres and a panoramic bayside outlook from the 19th floor. In attendance was San Francisco Giants' Reggie Younger, who was the lucky winner of his own Synergy Dream Bed, raffled off at the event. Sleep well, Reggie!
