Spotlight on Technology

Synergy is working hard to make its technology work for you. We will soon be launching customized web portals that deliver relevant information and services during your stay. Through Synergy's unique Guest Portal, you'll be able to find anything from itinerary information to copies of recent invoices, 24/7. Guests can submit and monitor service requests online, as well. Synergy's corporate contacts can access a Super User Portal that keeps them informed about arrival and departure dates, expenses, and service requests for entire groups of travelers. Specialized billing reports and evaluation summaries will be accessible with a few mouse clicks. Stay tuned for more online services as they become available.
